## Sleepover Recliner

The Salerno Sleepover Recliner combines sleek, modern curves with exquisite form and function. The stylish contoured back hugs and supports the lumbar region. An outside lever engages the chair's foot rest while a recessed release latch initiates the reclining motion.

Model: SLSR1

### Features

**Nightingale Award**  
Kwalu's GetWell Patient Room was awarded a Nightingale Innovation Award for Surfacing Material

**Durable Finish**  
Kwalu's solid surface proprietary finish does not have any of the drawbacks of wood. The finish is moisture impervious, easy to clean and maintenance-free.

**Release Latch to Operate Back**  
Release latch on inside of right arm activates back reclining positions, which lock when latch is disengaged.

**Lever to Operate Footrest**  
Lever on outside right arm independently controls the footrest only.

**Extended Length**  
Fully reclines to a depth of 73 inches.

**Easy to Clean**  
Clorox Healthcare and Kwalu are partnering to fight HAI's. Kwalu chairs have no topical coatings, so sanitizing solutions commonly used in healthcare environments can be used – including 100% bleach – without degrading the finish.
